

Data sheet **TACTICUM** range

TACTICUM plate carrier and battle belt configuration with groin, thigh, upper arm and neck/shoulder /throat protection

**TACTICUM vest configuration with groin, thigh, upper arm and neck/shoulder /throat protection
Battle belt as an option**

OVERVIEW

The TACTICUM is a set of products designed to form a complete set of inter-connectable and scalable items according to the need for protection during different missions.

The range consists of several modules which can be used alone or connected with each other. The protection levels are set by selecting the modules in use and the ballistic elements according to needed ballistic standard and threat level. All Verseidag Ballistic Protections ballistic solutions can be implemented (NIJ, VPAM, HOSDP/CAST, special solutions). The protection level can also be increased by means of insert plates for the modules which can carry these.

The driving concept for the modular design has been the combination of optimal ballistic protection, wear comfort and weight management.

- Ballistic protection levels for all vital parts and scalable according to the mission
- Large areas of PALS/MOLLE fastening system
- Latest materials for better sweat management and air ventilation
- Support functions for optimal weight distribution

The design allows adjustments for best fit with wide adjustment possibilities on all modules part of the TACTICUM.

PROTECTION LEVELS

Ballistic protection according to need and applicable standard, examples:

- NIJ 0101.04 level IIIA
- Additional protection levels with insert plates NIJ 0101.04 level III, III+ or IV

COLOUR OPTIONS

- Black
- Olive green
- Urban Camo
- Woodland Camo
- MULTICAMO

SIZE

- Size variants for modules S..XXL
- Some modules one size for all
- Special sizes upon request

WEIGHT

- Depending on configuration and ballistic solution

CODE	PRODUCT	WEIGHT ~ kg size L / IIIA	PROTECTION ~ m2 size L	INTER CONNECTABILITY / SCALABILITY
V	Tactical vest	3,4	0,38	Stand alone and M1..M5, V S
V S	Sweat plate modules			
C	Plate Carrier	2,3	0,15	Stand alone and M1..M5, C M, CB, B, V S
V S	Sweat plate modules			
C M	MOLLE-module	0,2		
C B	Bagpack for carrier (module)	0,5		
B	Battle Belt	1,8	0,15	Stand alone and M4, B S
B S	Suspenders	0,1		
M	Common protective modules			Can be added to V,C,B
M1	Neck / shoulder protection	1,0	0,10	<i>Fastened to V or C</i>
M2	Groin protection	0,5	0,06	<i>Fastened to V or C</i>
M3	Upper arm protection (pair)	0,9	0,18	<i>Fastened to V or C</i>
M4	Thigh protection (pair)	1,0	0,12	<i>Fastened to V or B or a duty belt</i>
M5	Throat protection	0,3	0,02	<i>In conjunction with M1</i>
EXAMPLE	Tactical vest with M1..M5	7,0	0,86	<i>not including insert plates</i>
EXAMPLE	Plate carrier, Battle belt with M1..M5	7,7	0,78	<i>not including insert plates</i>

TACTICUM PROTECTIVE MODULES (modules with ballistic protection)

Tactical vest

Plate carrier

Battle Belt

Neck / Shoulder protection
with Throat protection

Groin protection

Upper arm protection

Thigh (Upper leg) protection

TACTICUM ADDITIONAL MODULES

MOLLE-module

Bagpack for carrier (module)

Sweat plate modules (spacers for heat management)

Suspenders (for battle belt)
