

OVERVIEW

The Quick Deploy Plate Carrier (QDPC) is designed to carry 250 x 300 mm insert plates. The product is deployed within seconds, by throwing it over your head and fastening the Velcro® cummerbund side straps in the front. The plate carrier is a “one size fits” all configuration and the general size can be adjusted with adjustable shoulder straps and adjustable cummerbund. For better sweat management and air ventilation vest is equipped with Velcro® attached 3D mesh distance holders against the body. On the backside of the carrier there is a rescue handle.
